

Forever Sensei

Morning sun's shining bright.
La la la la la.
Facing the sky, spirits are high,
Gongyo fills our hearts with joy.
Arm in arm, together we climb.
The sun is breaking through.
Sensei, our lives are growing.
Sensei, our tears are flowing,
as shining eyes call to you.
Sensei, Sensei. Forever, Sensei.

Mid-day sun burning bright.
La la la la la.
Courage is found, hope is the sound.
Shakubuku is the way.
Arm in arm, together we climb.
Sun is breaking through.
Sensei, our lives are growing.
Sensei, our tears are flowing,
as shining eyes call to you.
Sensei, Sensei. Forever, Sensei.

Moonlight smiling in the night.
La la la la la.
Tomorrow's dreams, calling to all.
Join our hearts in unity.
Arm in arm, together we climb.
The sun is breaking through.
Sensei, our lives are growing.
Sensei, our tears are flowing,
as shining eyes call to you.
Sensei, Sensei. Forever, Sensei.

*In our attempt to make SGI's message more easily understood in the English-speaking world, we have tried to remove unnecessary Japanese terms from our communications. One of those words is zadankai, which means discussion meeting. The last line of the third verse which read, "**Zadankai**" has recently been changed to "**Join our hearts in unity!**"
